BID CENTER

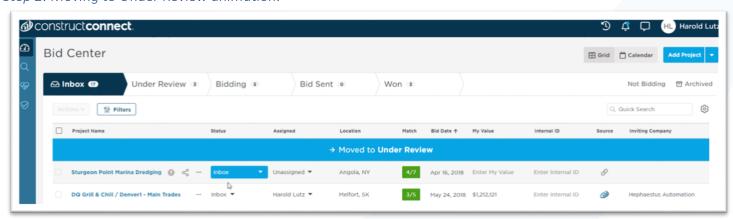

Animation for Project Status Change

- When you change a status for any project in Bid Center you will now see a new animation that will show you exactly where your project is going in the workflow.
 - Value: Added clarity for where projects are going in your pipeline.
 - o Value: Updated counts for each segment in your Bid Center to ensure you stay informed.
 - o Value: It's fun!
- Change status for X-Wing Production Facility to Under Review and see how the animation clearly shows where your project moves!

Step 1: Changing status

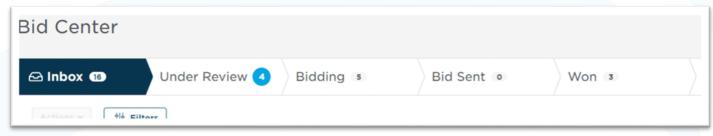

Step 2: Moving to Under Review animation:

Step 3: Under Review is highlighted with updated project count!

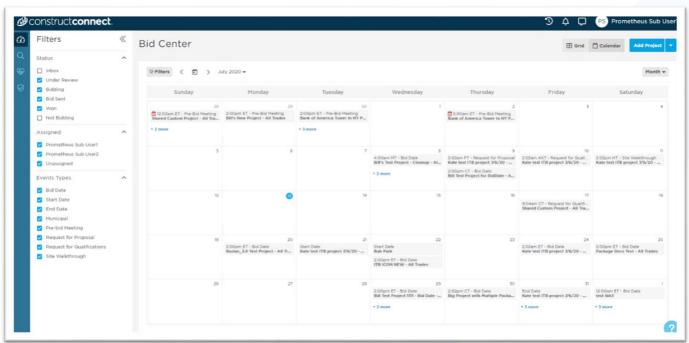

Improved accessibility experience when creating a project.

Value: Clearly defined field highlights while tabbing through the Add Project form ensures you'll always know where
you are.

Calendar View for Bid Center

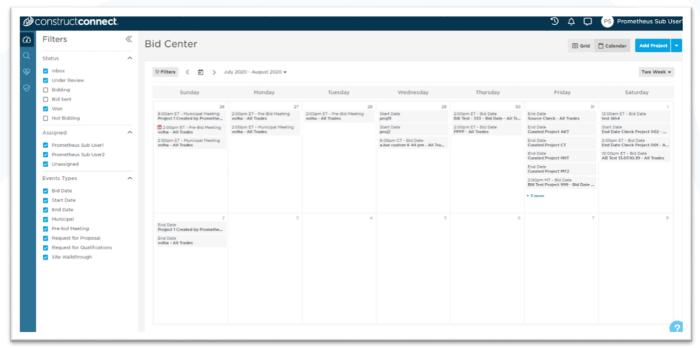

- Value: Most requested feature by customers after the Grid view
- Value: Users now can manage their project timelines directly in the Bid Center
- Value: Events for all non-archived Bid Center projects
- Value: Ability to filter by event type, project status, and assignee
- Value: Month and Two Week views
- Value: Ability to update custom fields directly in the Calendar

Calendar, Month View

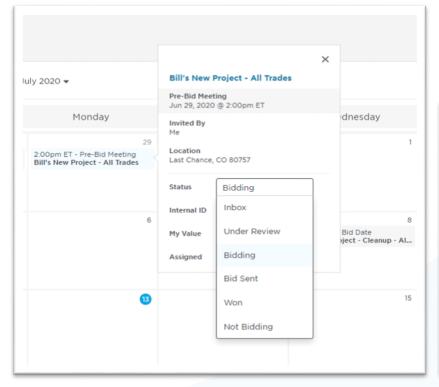

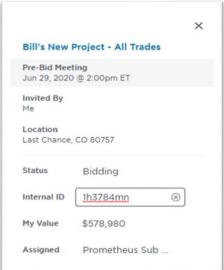

Calendar, Two Week View

Calendar, Project Preview Card with Editable Custom Fields

USER MANAGEMENT PORTAL - NEWLY LAUNCHED!!

Company Admin role

What's the purpose of the "Company Admin" role? The "Company Admin" role is a ConstructConnect platform user role that grants permission to manage customer licenses and users via the new User Management Portal.

General rules

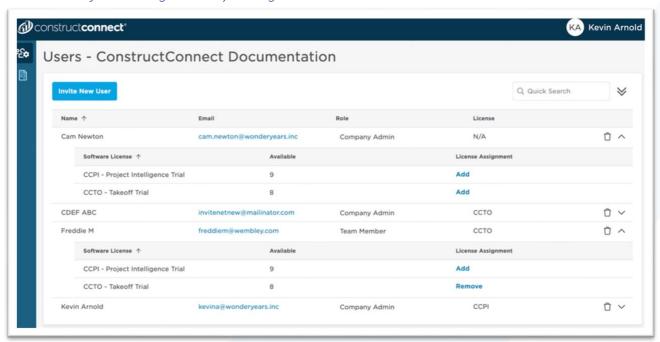

- The first user created for a customer automatically becomes a "Company Admin"
- Any user can be assigned the "Company Admin" role
- There is no limit on how many users can be a "Company Admin"
- "Company Admin" users without any licenses assigned to them can still access the User Management Portal

User Management

What does user management provide? User management provides the ability to invite existing or new users to a customer account, remove users, and assign or unassign the role of "Company Admin".

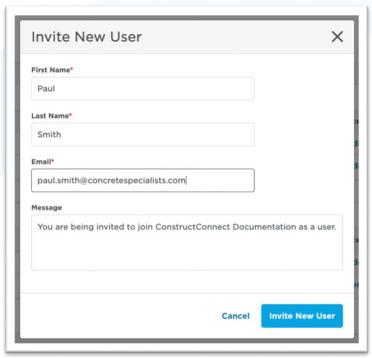

• ✓ <u>Value:</u> Manage all users without the need to contact customer support

Review a list of all existing users in your organization

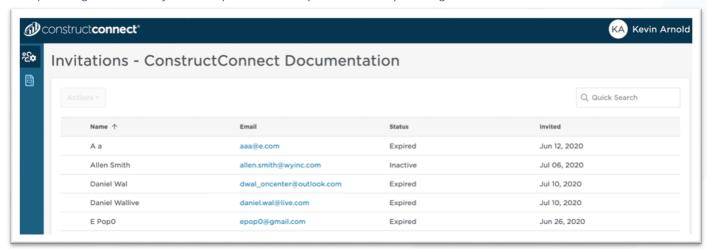

Invite new users into your organization

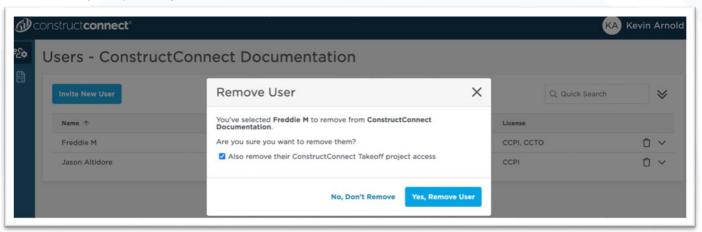

View pending invitations for users you've already invited into your organization

Remove users from your organization

Assign the 'Company Admin' role to as many users in your organization

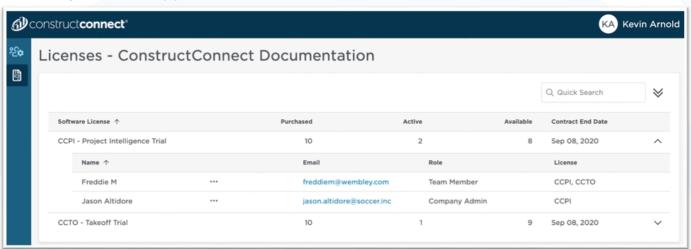

License management

What does license management provide? License management provides the ability to view existing licenses for all users as well as assign and remove licenses based on availability.

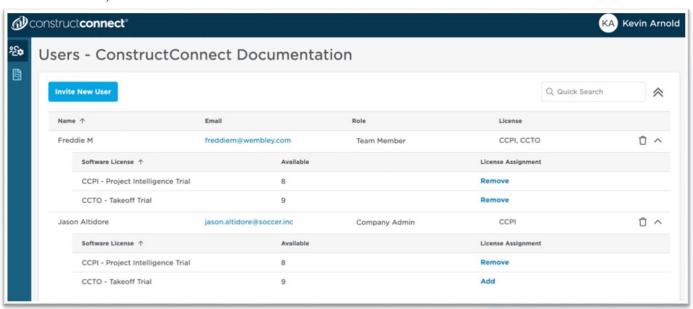

- Value: Quickly assign and remove licenses based on current business needs
- Value: Manage all user licenses without the need to contact customer support

Review assigned licenses by product

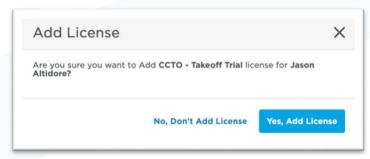

Review licenses by user

Add a license to a user

Remove a license from a user
