## BID CENTER

### Project Viewed Indication

- Unopened projects, links you haven't opened yet, will now appear in bold font in Bid Center.
  - ✓ **Value:** You will easily know if you have projects that you haven't viewed yet
  - ✓ **Value:** Project Viewed Indication is synced across the ConstructConnect site so you'll see the same Project Viewed Indication in Bid Center Grid and Calendar, Watch List, and Search

### *Bid Center Inbox with Mix of Viewed and Unviewed Projects*

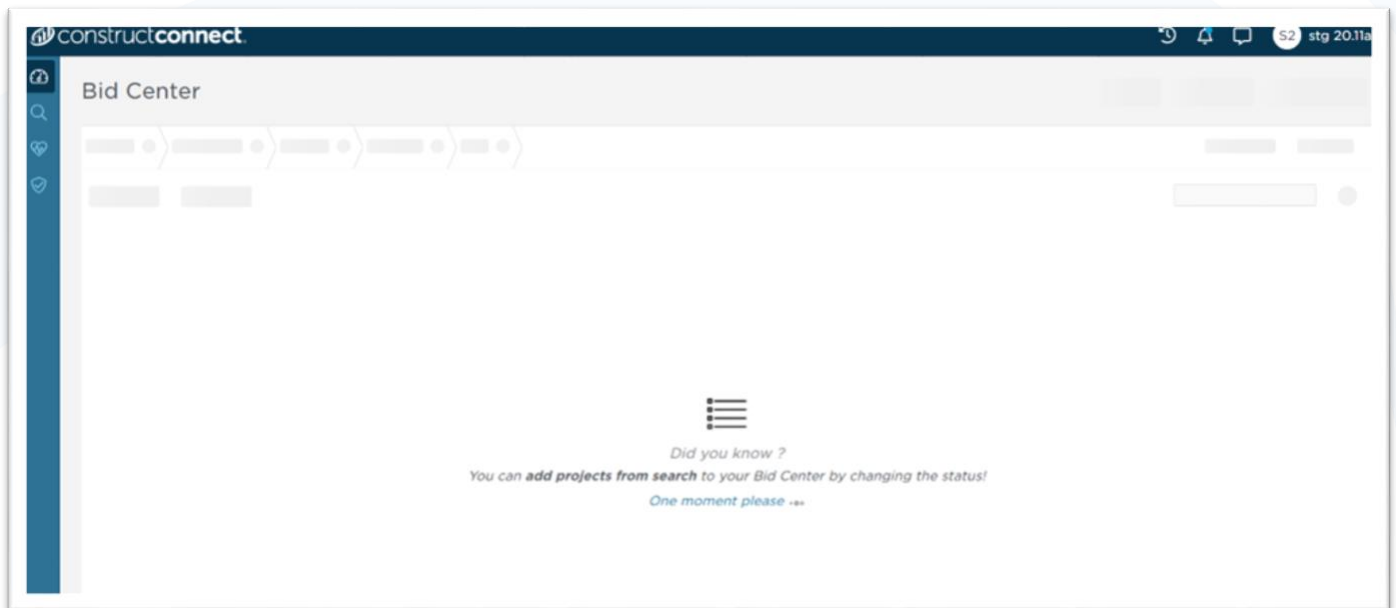

Project Name	Status	Assigned	Location	Match	Bid Date	Internal ID	Source	Inviting Company	My Value
Tuscola Connector Bridge	Confirm Project		San Francisco, CA	N/A					
<b>Nippert Expansion to 100,000 Seats - Far 52 Suites - Request Access</b>	Inbox	Harold Lutz	OH	2/5	Oct 31, 2020	Enter Internal ID		Hephaestus Automation 15...	Enter My Value

### New Bid Center Loading Experience

- While loading you'll see tips that will help you get the most out of your Bid Center experience.
  - ✓ **Value:** Learn more about what Bid Center can do for you!

## New Bid Center Loading Page

### External Share: Disable Re-Sharing of Custom Projects

- ✓ **Value:** You can now fully control who can see the projects you create

### Responsiveness: Add Bid Center tab to Mobile View of Custom Projects

- ✓ **Value:** You can now comfortably view and edit Bid Center related fields of custom PDP on tablet and mobile devices

### Edit Custom PDP: Performance Improvement

- When user is editing Custom Project Details Page (PDP) the system will now collect all the changes made within the last 3 seconds and then will update the record with this batch of changes.
  - ✓ **Value:** You can now make quick edits to custom PDP without a risk of system not catching up with you

### Bid Center Quality Improvements

- External Share Template for Custom Projects now has the same fields as Curated template
- Custom PDP: now system will collect the batch of PDP changes within 3 seconds to solve a few performance related issue
- Custom PDP: Buttons of Documents section are not overlapping anymore at mobile resolutions
- Custom PDP: adding and editing Events doesn't display duplicates anymore
- Custom PDP: multiple UI issues related to responsiveness have been addressed
- ITB PDP: Bid Date time zone now matches Bid Date time zones set by GC for sent ITB projects
- Calendar View: several typos are corrected on Filters panel

## PROJECT INTELLIGENCE

### Login Page Redirect

- ✓ **Value:** Users are taken directly to the login page and don't have to click on the Log In Button on the splash page to get to the login page.
- ✓ **Value:** This reduces friction and makes for a better login experience.

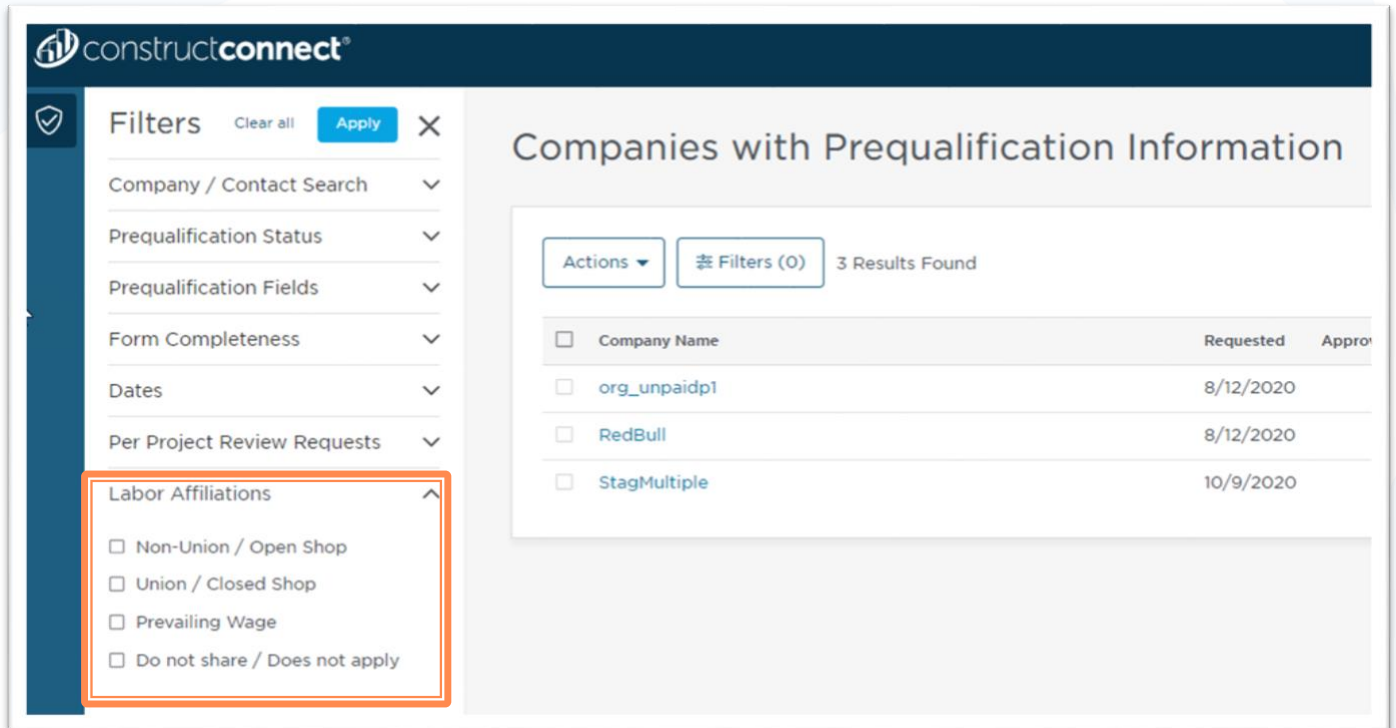

### Project Intelligence Quality Improvements

- The full project title displays on the filter panel in smaller screen sizes.
- Hide shows up when the Actions menu is opened and functions properly.
- The Document Viewer button displays properly on the Project Detail Page in smaller screen sizes.
- Projects with tasks only appear on one task tab after being watched.
- Task tabs with no projects in them display with proper padding on smaller screen sizes.
- Bid Bond Performance and Set Aside data are now populating on the Project Detail Page.
- Filters are retained on project and company watch list when switching between Project Detail Page and watch list or search results.
- Search context remains after saving a search tag or other saved searches.
- Users can search for the keyword "non-accessible" and receive accurate results.
- If returning to Bid Center Grid using Back button in the browser, you will no longer experience another load of Bid Center.
- When changing Assigned field in Project Detail Page and clicking Back to Bid Center or Back in your browser you will now see the change reflected in the Bid Center.

## RISK MANAGEMENT

### Manage Forms – Labor Affiliations Filters

- These filters are new to Risk Management

The screenshot displays the Construct Connect interface. On the left, a 'Filters' sidebar is visible, with the 'Labor Affiliations' section highlighted by an orange box. This section contains four filter options, each with an unchecked checkbox:

- Non-Union / Open Shop
- Union / Closed Shop
- Prevailing Wage
- Do not share / Does not apply

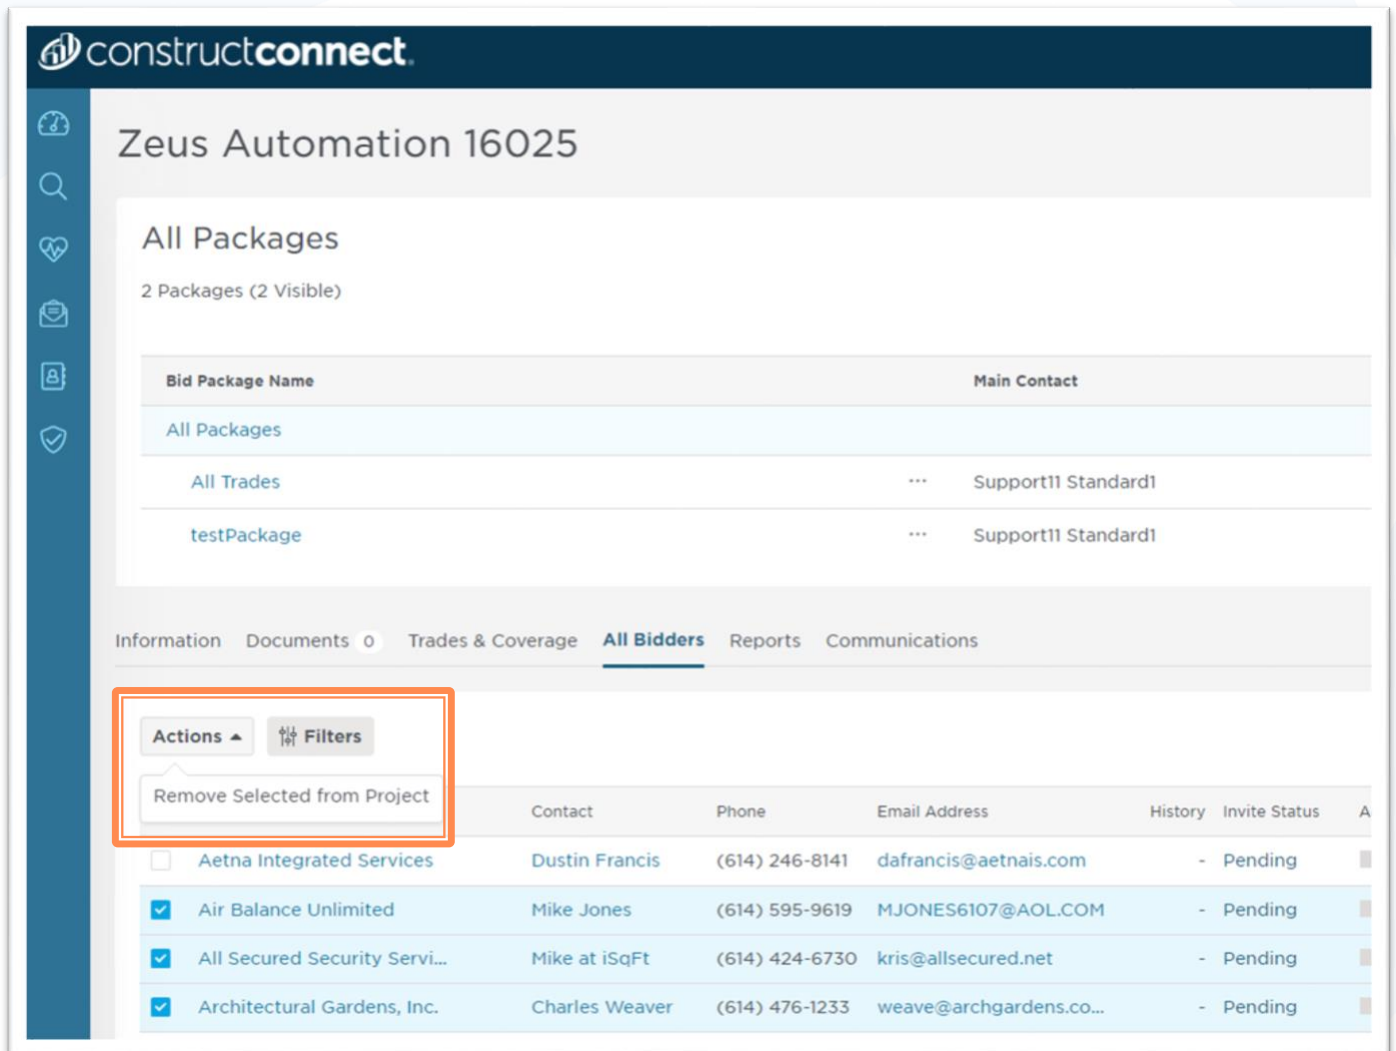

The main content area is titled 'Companies with Prequalification Information'. It features a table with the following data:

<input type="checkbox"/>	Company Name	Requested	Appro
<input type="checkbox"/>	org_unpaidp1	8/12/2020	
<input type="checkbox"/>	RedBull	8/12/2020	
<input type="checkbox"/>	StagMultiple	10/9/2020	

BID MANAGEMENT

Bid Packages - Actions Button on All Bidders

- 'Remove Bidders from the Project' on the All Bidders tab from the Project view **is a new** enhancement

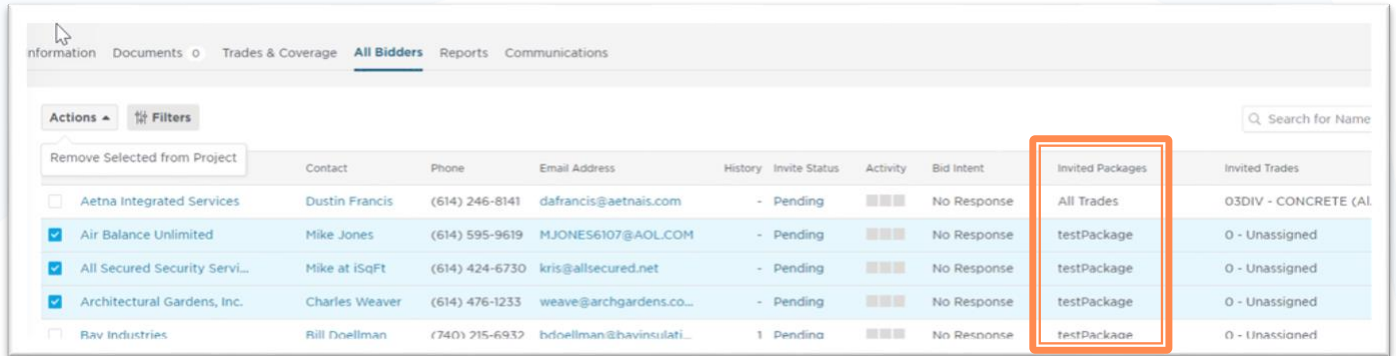

The screenshot shows the Construct Connect interface for a project named 'Zeus Automation 16025'. The 'All Packages' section is visible, showing two packages: 'All Trades' and 'testPackage', both with 'Support11 Standard1' as the main contact. Below this, the 'All Bidders' tab is active, displaying a table of bidders. An 'Actions' dropdown menu is highlighted with an orange box, showing the option 'Remove Selected from Project'. The table below has columns for Contact, Phone, Email Address, History, and Invite Status.

	Contact	Phone	Email Address	History	Invite Status	A
<input type="checkbox"/>	Aetna Integrated Services	Dustin Francis	(614) 246-8141	dafrancis@aetnais.com	- Pending	
<input checked="" type="checkbox"/>	Air Balance Unlimited	Mike Jones	(614) 595-9619	MJONES6107@AOL.COM	- Pending	
<input checked="" type="checkbox"/>	All Secured Security Servi...	Mike at iSqFt	(614) 424-6730	kris@allsecured.net	- Pending	
<input checked="" type="checkbox"/>	Architectural Gardens, Inc.	Charles Weaver	(614) 476-1233	weave@archgardens.co...	- Pending	

### Invited Bid Packages – All Bidders tab

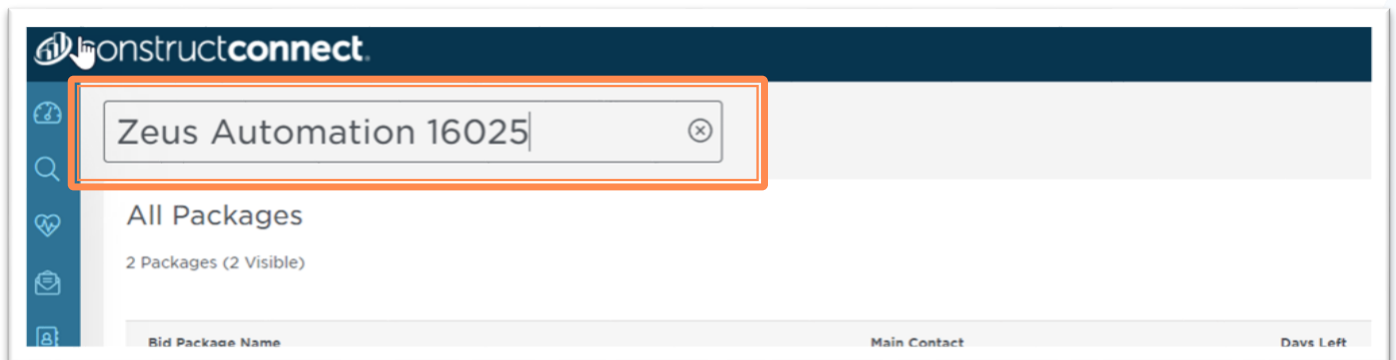

- View 'Invited Bid Packages' Column while in the All Packages view on the All Bidders tab.

Remove Selected from Project	Contact	Phone	Email Address	History	Invite Status	Activity	Bid Intent	Invited Packages	Invited Trades
<input type="checkbox"/>	Aetna Integrated Services	Dustin Francis	(614) 246-8141	dafrancis@aetnais.com	- Pending	■■■■	No Response	All Trades	03DIV - CONCRETE (AL
<input checked="" type="checkbox"/>	Air Balance Unlimited	Mike Jones	(614) 595-9619	MJONES6107@AOL.COM	- Pending	■■■■	No Response	testPackage	0 - Unassigned
<input checked="" type="checkbox"/>	All Secured Security Servi...	Mike at iSqFT	(614) 424-6730	kris@allsecured.net	- Pending	■■■■	No Response	testPackage	0 - Unassigned
<input checked="" type="checkbox"/>	Architectural Gardens, Inc.	Charles Weaver	(614) 476-1233	weave@archgardens.co...	- Pending	■■■■	No Response	testPackage	0 - Unassigned
<input type="checkbox"/>	Rav Industries	Bill Doellman	(740) 215-6932	bddoellman@bhvinculati...	1 Pending	■■■■	No Response	testPackage	0 - Unassigned

### Project Name In-line Edit

- In-line editing is now available for your Project Name. Click on the project name to immediately edit the text.

Construct Connect

Zeus Automation 16025

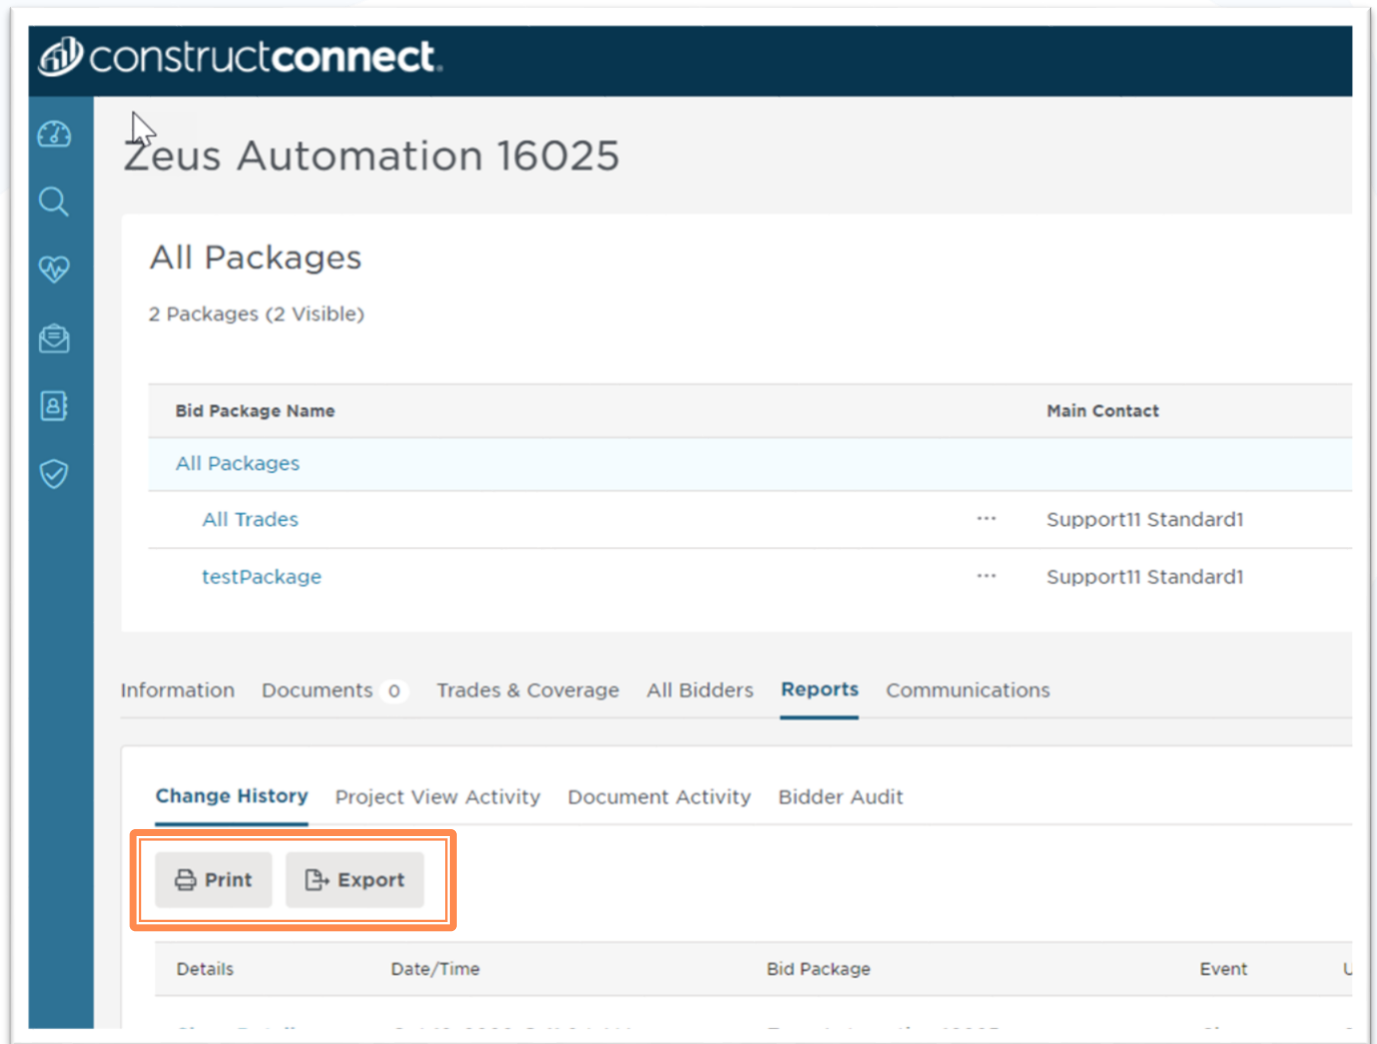

All Packages

2 Packages (2 Visible)

Bid Package Name	Main Contact	Days Left
------------------	--------------	-----------

## Reports Tab – Print and Export

- You can now print and export your reports for all Bid Packages on the Reports Tab while in the All Packages view. This is in addition to the previously released feature where you can print/export reports per package in package views.

The screenshot shows the Construct Connect interface for the project "Zeus Automation 16025". The "Reports" tab is selected, and the "All Packages" view is active. A table lists bid packages with columns for "Bid Package Name" and "Main Contact". Below the table, a navigation bar includes "Information", "Documents", "Trades & Coverage", "All Bidders", "Reports", and "Communications". Under the "Reports" tab, there are sub-tabs for "Change History", "Project View Activity", "Document Activity", and "Bidder Audit". A red box highlights the "Print" and "Export" buttons. Below these buttons is a table with columns for "Details", "Date/Time", "Bid Package", and "Event".

Bid Package Name	Main Contact

## USER MANAGEMENT PORTAL

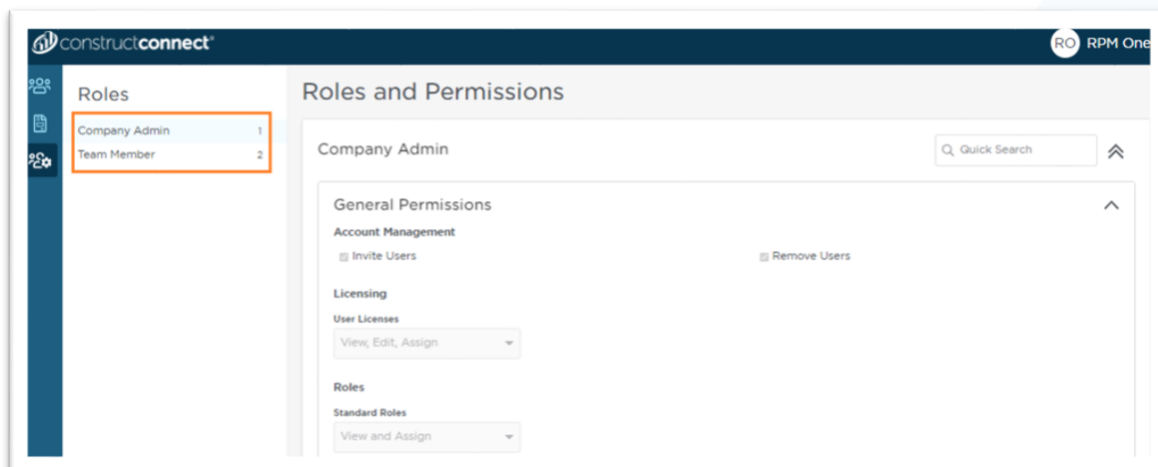

### Visibility into User Level Roles and Permissions

- The Company Admin users will be able to view the roles and permissions assigned to each user in the account.
- ✓ **Value:** Provides visibility to the permissions associated with a role and will provide clarity for the company administrators as they are assigning roles to each individual user.

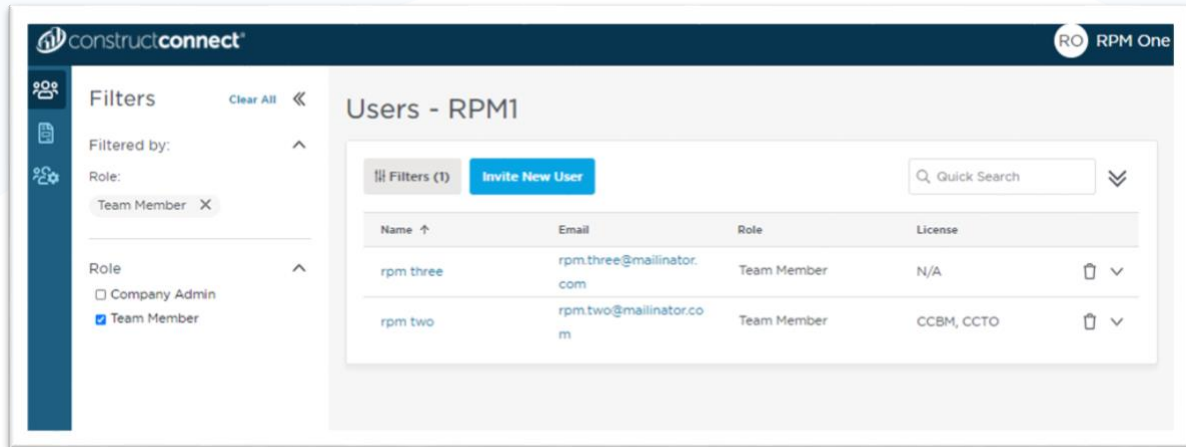

### Visibility into who is using ConstructConnect Modules

- The Company Admin will be able to view the number of users assigned to each role and permissions assigned to each role.

### Filter based on Role

- The Company Admin will be able to filter the users based on their company role.
- ✓ **Value:** Offers high-level overview of what roles and permissions are assigned to users in the company.

### Self-Manage your Team's Licenses and Self-aggregation

- Licensed users should be able to accept invitation request and move organizations using self-aggregation process.
- ✓ **Value:** Users no longer need to request their company admins to remove their licenses before they are able to accept the invitation to move organizations
