- Bid Management & Risk Management..... 6**
 - Prequalification Data in My Directory 6
 - Bidder Search Filter Design Updates..... 6
 - New Grid Design for Bidders List on Trades & Coverage 6
 - Bid Management Quality Improvements 7
 - New Grid Design for Bidders List on Trades & Coverage 9

BID CENTER

New List Layout (Premium feature) - All of your active projects in a single list!

- ✓ **Value:** See a complete overview of all your active projects.
- ✓ **Value:** Use Quick Search to easily find any of our active project.
- **Note:** The Bid Center layout you're accustomed to is still available as well and is now called "Tabs" layout.

List Layout

<input type="checkbox"/>	Project Name	Status	Bid Date	Location	Match
<input type="checkbox"/>	Portillo's	...	Under Review	Denver, CO	3/7
<input type="checkbox"/>	Alaska Rail Line Extension To Canada - Alaska Department of...	...	Bidding	Anchorage, AK	2/7
<input type="checkbox"/>	Bozeman Mixed Use	...	Under Review	Bozeman, MT	3/7
<input type="checkbox"/>	Casino project CCBC - All Trades	...	Under Review	Nov 30, 2021	1/4
<input type="checkbox"/>	Goleta library project (hp) - All Trades	...	Under Review	Jun 15, 2022	1/4
<input type="checkbox"/>	Crater Corners Medford - All Trades	...	Under Review	Feb 19, 2020	1/5

Bid Center Quality Improvements

- Custom Project Detail Page has been updated with new input fields, dropdowns, and date pickers to allow for easier entry and choosing of information.

PROJECT INTELLIGENCE

Project Search – New Table

- ✓ **Value:** Navigation is now much easier with a static header and footer that keeps all your options in view as your scroll through projects.
- ✓ **Value:** Footer includes selection of Rows per page so that you can easily change how many projects you want to see per page anytime.
- ✓ **Value:** Change column widths so that you can see as much or as little as you want.
- ✓ **Value:** Change column order by drag and drop so that your view is setup how you want it.
- ✓ **Value:** New actions toolbar appears when you select projects to show you all of your available actions including adding projects to Bid Center, adding/removing from Watch List, exporting to Excel, or hiding/unhiding projects.

Project Intelligence Quality Improvements

- Project Description Search will now return results for keywords found within the entire project description field in the project details page. This should increase the number of results you see when using Project Description Search.
- Fixed a problem where new projects in the system were showing a 404 error instead of the project details page when opened from Project Search.

BID MANAGEMENT & RISK MANAGEMENT

Prequalification Data in My Directory

Value Prop: You are now able to view your Directory contacts Prequalification Form status in “My Directory”. This includes the status of your Trade Contractors form, accessing your contacts Prequalification form and the ability to send a Prequalification request to one or multiple Directory contacts. This new functionality allows you to easily manage your prequalification needs while viewing your directory contacts, saving you time and increasing your efficiency.

Bidder Search Filter Design Updates

Value Prop: We have updated the design of the Bidder Search Filters. The new design makes the application of the filters easier to recognize. Separate scroll ability... and the ability to collapse the filter panel provides separation from the grid and provides visibility in the area you would like to focus on.

New Grid Design for Bidders List on Trades & Coverage

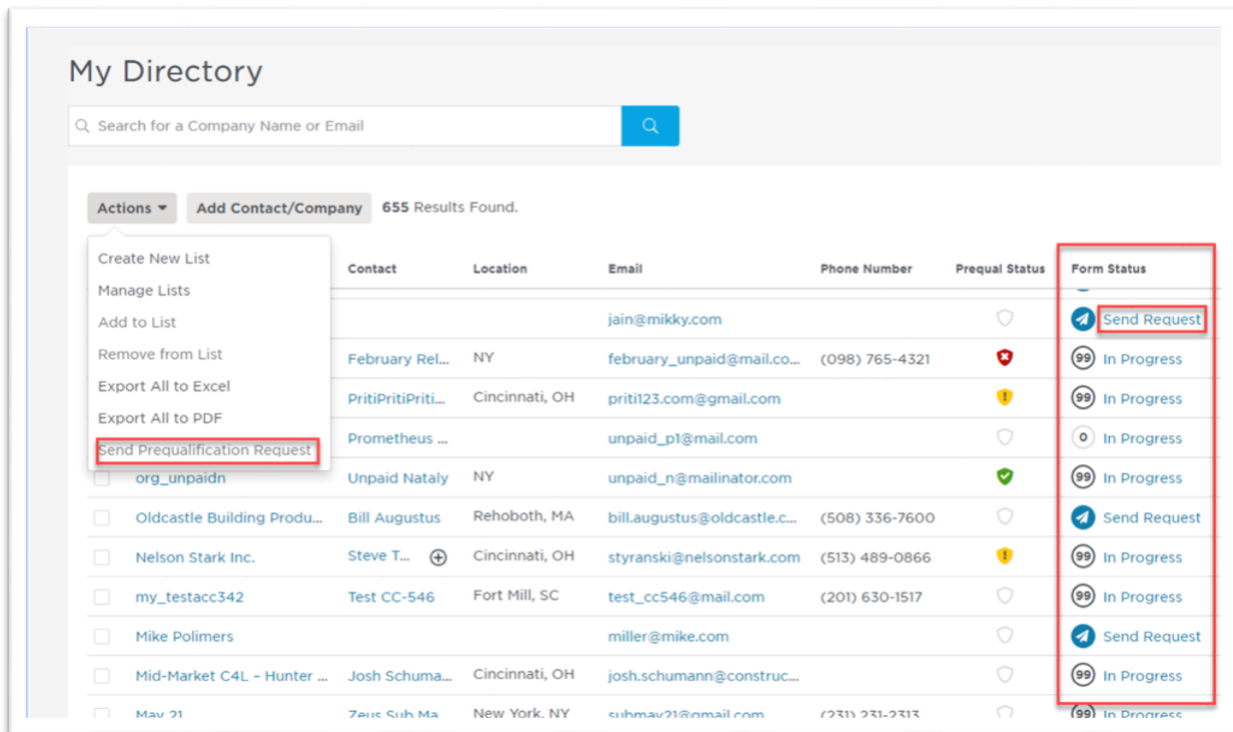

Value Prop: You can now see the table in the view that works for you, with the columns arranged and sized according to your preferences. This saves time and increases productivity. The settings are remembered and automatically applied the next time you load the page. Both desktop and mobile screens.

Bid Management Quality Improvements

- Not all bidders were being displayed in the All Bidders tab after an Invitation to Bid (ITB) was sent. Once the page was refreshed, the bidders were displayed. This was due to a delay in recording the bidders an ITB was sent to. After changing the way bidders are recorded after an ITB send and now all bidders who were sent an ITB will immediately display in the All Bidders tab.
- Sort By drop down has been removed in “My Directory”. With updates to the grid, you are now able to sort by clicking on the header of a column.
- Distance is now displayed in the Bidder Search grid and measures from the Project Location to the Contact’s address. If Contact address is not available this is measured to the Bidder Office Location.

Prequalification Data in “My Directory”

- PQ Form Status Column Displays in My Directory
- You are able to view your contacts form by clicking on the icon in the Form Status column
- There are two ways to send PQ requests to your contacts
 - Selecting “Send Request” in the Form Status column to send a PQ request to an individual contact
 - Bulk Send a PQ request by selecting multiple contact check boxes then Send Prequalification Request in the Actions drop down.
