Bid Center Quality Improvements	2
Project Intelligence	3
Project Details Search – A New Way to Search	3
Watch List Filter in Project and Company Search	3
Editing Company Information Locked for Non-Admin Users	4
Project Intelligence Quality Improvements	5

BID CENTER

Bid Center Quality Improvements

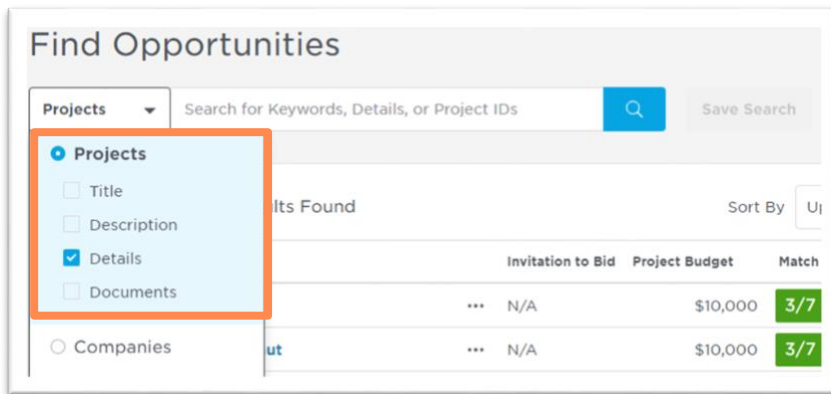

- Clarified notification setting text for Daily Project Updates based on Search Tags.
- Entering URL app.constructconnect.com/bidcenter will now take you to your ConstructConnect home page instead of displaying an error page.
- Actions Toolbar that displays when you select projects in Bid Center has been updated to show the options available to you better.
- You can now edit the time zone for Bid Date in a custom project after you've created it..

PROJECT INTELLIGENCE

Project Details Search – A New Way to Search

- ✓ **Value:** Using a keyword we'll find the projects that matter most to you by searching beyond the project title or description.
- ✓ **Value:** Type in a keyword and we'll find projects that match your keyword in Building Use, Trades, Sector, Description, or Title.
- ✓ **Value:** Use Project Details search to cast a wider net with your saved searches and search tags to make sure you never miss an opportunity.

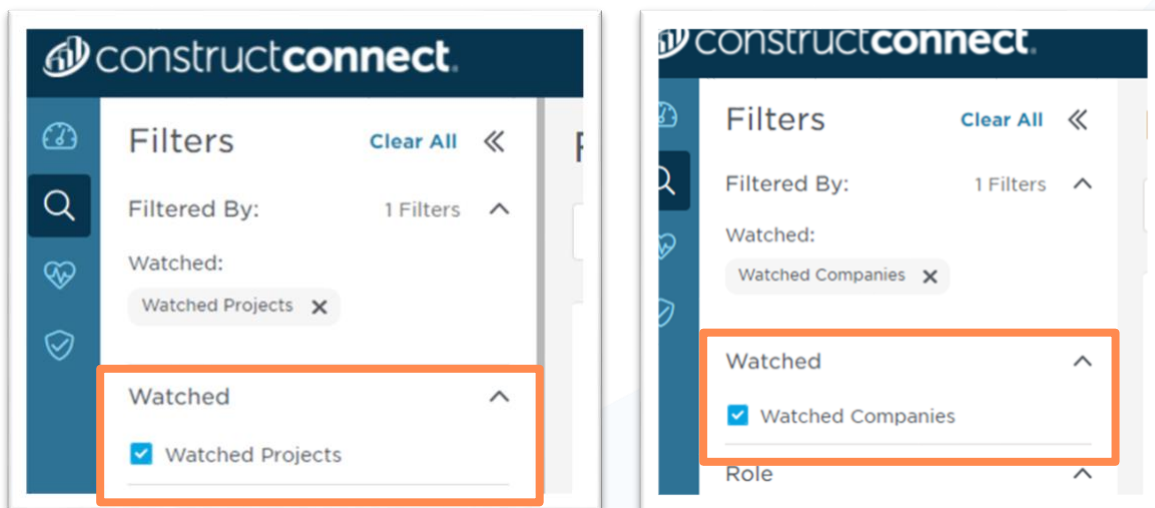

Project Details Search

Watch List Filter in Project and Company Search

- ✓ **Value:** Find your Watch List projects and companies without having to leave the search.

Watch List Filter in Project or Company Search

Editing Company Information Locked for Non-Admin Users

- ✓ **Value:** Users that you invite to join your account can no longer willingly or unwillingly change your company information. Users without admin privileges will still have access to see company information with read only access.

Project Intelligence Quality Improvements

- Project Document Details now appear in all subscription project detail pages when the information is available. Previously the document details were only displayed if the document status for the project was "Project Details Only".
- UNKNOWN will no longer show up in applied filters.
- Postal code 31707 now returns the correct geography in filters and search..
